

# Pinewoods Scottish Sessions

## 2025 Covid Policy

Pinewoods Camp, Inc. establishes minimum COVID guidelines for the safety of both campers and Pinewoods Crew. The 2025 guidelines can be found at <https://pinewoods.org/covid-guidelines/>

All campers must bring a minimum number of rapid tests (RAT or NAAT):

- Session I Only: 3 tests
- Session II Only: 4 tests
- Both Sessions: 7 tests if leaving camp between sessions. 4 tests required if remaining between sessions, but we recommend you bring extras in case a positive test during Session I necessitates additional testing.

All campers must bring a supply of high-filtration (N95 or equivalent) masks in case they are needed.

Campers are strongly encouraged to get the most recent vaccine/booster.

Campers are strongly encouraged to exercise caution in the week before camp and while travelling to camp by wearing high-filtration masks in indoor public areas.

RSCDS Boston will refund all or part of the Pinewoods attendance fee of any camper who cannot attend all or part of their session(s) as a result of COVID symptoms or a positive test.

Pinewoods Camp and RSCDS Boston may change their requirements and policies as July approaches. Campers will also be required to abide by any other guidelines from the CDC and the local health department that are in effect in July. Our aim is to make camp a comfortable space while keeping our campers and Pinewoods staff safe.

More details will be emailed closer to camp.
